COMMENTS FROM THE CHAIR

By: Dwight McNeil

Investigators:

It doesn't seem
possible that
it has been

four years since the creation of the Board of Private Investigation Examiners. Much has been accomplished during the Board's tenure including the drafting and passage of rules establishing the licensing procedure and handling and resolving complaints and other issues which fall under the Board's responsibility. Over the past year, we have also successfully merged with the Board of Private Fire Investigators, and we are in the process of drafting rules of licensure of Private Fire Investigators with much appreciated input from the State Fire Marshal as well as the IAAI and PFFIA.

It has been rewarding to see the results of the hard work by our staff in Jefferson City to bring the actual licensing process to fruition.

We have been blessed to have one of the best teams at the Division of Professional Registration to support us in this endeavor and the many compliments we have heard from licensees regarding their professionalism and assistance are a testament to their attitude, knowledge and skill.

However, with all that has been accomplished, there is still work to be done. The bulk of the Board's responsibilities to implement the licensing process have been accomplished and over the past year, a significant percentage of our focus has shift to complaint review and resolution. As you will see in the statistics provided in this newsletter, more than one hundred complaints have been fielded, investigated and resolved by the Board.

This Board relies heavily upon input from you, the licensees, as well as the input we receive from the public. A number of procedural changes have been made over the course of the past two years in an attempt to streamline the licensing process and make it less

cumbersome for members of the profession. We value your continued input and look forward to hearing from you at any time, and I would encourage you to attend one of our regular meetings which are held quarterly in Jefferson City.

Regards,
J. Dwight McNiel

MESSAGE FROM EXECUTIVE DIRECTOR

By: Pam Groose

First, I want to say that I hope everyone enjoys the first Newsletter from the Board of Private

Investigator & Private Fire Investigator Examiners. I realize there is a lot of informative information being shared and I truly hope some of your questions will be answered when you are finished reading. If not, I want you to feel free to [contact our office](#) in regard to your unanswered question(s).

We have done it, we obtained statutory authority to license private investigators & private fire investigators *and* we have now completed the first renewal and CE cycle for private investigators. I don't know about you but I am glad we are past those steps.

I do want to take some time and talk with you about a few things that most everyone needs to pay more attention to:

1. CONTINUING EDUCATION

Private Investigators are now in the next continuing education cycle so you should be thinking and planning for those required hours. You will find a list of approved hours on our website, check it often for new offerings. Remember, if you attend an offering that has been submitted by the provider you DO NOT have to submit the required individual course application with the \$10.00 fee *but* if you attend

an offering that is not on the approved list you **must** submit the individual request, \$10.00 fee, agenda and attendance certificate. My biggest request and reminder is that you begin submitting continuing education information as it is obtained, don't wait until you receive your renewal. Because this was the first renewal and continuing education cycle the Board was very forgiving but that cannot continue to happen. Make yourself familiar with the continuing education requirements in the rule.

2. LICENSE EXPIRATION DATES

Licenses for private investigators expire April 30, for agencies they expire May 31 and for agency investigator employees, the expiration date is June 30. It is illegal to work past the expiration date of the license. Not renewing an agency license prior to the expiration date invalidates all Agency Investigator Employee licenses so please pay attention to those expiration dates. It is important to understand that a private investigator license not renewed prior to April 30 can invalidate the agency license which invalidates all agency investigator employees registered with that agency.

3. ADVERTISING

Another reminder, remember you cannot advertise or conduct business from an address other than the one on file with the Board as your principal place of business. The public must be able to verify your location. Your letterhead and businesscards should include your

name, telephone number or numbers and your license number or the agency license number.

4. UNLICENSED PRACTICE

If you are aware of an individual practicing without a license you can file a complaint with the Board by completing a complaint form that can be found on our website at pr.mo.gov/pi.

5. CHANGE OF EMPLOYMENT

Agency Investigator Employees (AIE) and Private Investigators In Charge (PIIC), this information is for you. AIE, if you terminate from an agency, you are to return your license and pocket card to the PIIC. PIIC you are to collect and return the license and pocket card to the Board office within five (5) days of the termination. PIIC, if you are unable to get the license and pocket card back from the AIE please notify our office of the termination in order that our records get updated as quickly as possible. Reason...the AIE holds an active license and that license will continue to be verified as active until we receive notification from the PIIC that the AIE is no longer employed with the agency. AIE you cannot terminate from one agency and go to work for another agency without submitting an application to our office making that change in agency. PIIC, do not work an AIE until such time as an application has been submitted to our office and

you have received the license and pocket card showing the individual is registered with your agency.

6. BOARD MEMBERS

Lastly, I want to thank the current Board members for their time and talents as well as their patience helping me and my staff to better understand the private investigation business, we could not have made it this far without their vast knowledge and direction. You, as licensees may be interested to know that these members have traveled to Jefferson City for board meetings 35 times beginning with their first meeting on 7/21/2008. These members have put in many hours to get us to this point.
